

Network Rail would like to identify and attract ex-Military Veterans into a diverse range of job roles across their business and promote the opportunity for ex-Military Veterans to set up a profile on the Network Rail site which will enable candidates to benefit from receiving job alerts. Within their profile, it is also important for candidates to highlight that they are an ex-Military Veteran, to ensure Network Rail can identify their link with the Armed Forces, and also to stipulate the locations they can travel to (Network Rail offer up to 90 minutes subsidised travel). Here are the links we've been asked to publicise :Â
