Former Defence Secretary wants new SDR
Ten years without a new strategic defence review (SDR) is too long, former Defence Secretary Lord Robertson has told peers. Speaking during a debate on defence in the House of Lords, the former Defence Secretary and Secretary General of NATO told peers that the 1998 SDR was outdated and no longer relevant in 2009.

Russian, Polish foreign ministers to talk missile defense, energy
Polish Foreign Minister Radoslaw Sikorski arrives in Moscow on Tuesday for a two-day working visit to discuss European security, energy supplies and missile defense issues with his Russian counterpart.
RIA Novosti
Jobs in balance in £1bn Eurofighter order
British ministers are grappling with the potential costs to jobs and the UK defence industrial base if the government abandons a planned £1bn order of Eurofighter Typhoon jets, as a decision on whether to pull out of the contract nears.
Financial Times
Fresh setback for £1.2bn nuclear submarine HMS Astute
Work on HMS Astute, billed as the first of a new generation of nuclear submarine, stopped at Barrow-in-Furness last month when a fire broke out in the conning tower as 20 people were working on board. Now it has emerged that there are problems with the vessel's propulsion system, a fault which engineers have been unable to rectify because of the fire.
